

## THE GRIM DESTROYER.

THE TERRIBLE SCOURGE REAPING WHOLESALE DEATH.

Fearful Mortality at Marseilles and Dropping Dead in the Streets of Grenada. Dumped Into Trenches—In Seville—Foreign News Notes.

MARSEILLES, Aug. 17.—The mortality is decreasing so slowly concerning the number of deaths. The total reached eighty-five. About fifty were cases of cholera. There were forty-two deaths by cholera out of a mortality list of seventy-seven. At the Pharo there are forty-five patients.

Many of the steamship companies are discontinuing their service. The rigors of quarantine paralyze commerce. The situation is critical. At No. 3 Place Flavia three instantaneous deaths occurred. The municipal council protests against the report of Dr. Brouardel to the academy of medicine, in which it was said that the cholera had raged more severely at Marseilles than anywhere.

The president of the hospital commission, whom has just been seen, hopes that the epidemic will be less severe than in 1884. But he recognizes the exceptional gravity of affairs. Typhus, too, counts daily victims. The cholera has appeared in the townships of the department. The prefect has gone forth with two specialists. The best is stifling. Many Italians are returning to their country.

The ravages of the cholera in Grenada are horrible. Scores of the victims of the disease drop and die in the streets, where, in many cases, they remain for hours before they are gathered up at night for a hurried and unceremonious burial in a common trench.

There is great excitement in Seville over the government proposal to abolish the power of the local authorities during the prevalence of the cholera, because of its inefficiency in sanitation, and to itself assume the direction of the city's local affairs. The populace are hostile to the doctors and even any interference in family affairs, and they strongly support the local authorities. Great crowds assembled in the public places to discuss the situation, and the civil guard was called upon to disperse them.

The Italian government is arranging to convey poor Italian emigrants at Marseilles and along the French coast by rail to Italy in order to be able to supervise their habits and prevent their infection with cholera. The Italian newspaper, of Rome, protests against this action as calculated to introduce cholera into Italy, and insists that poor Italian returning home from the infected districts of France should be compelled to travel by water and be subjected to quarantine before being allowed to land.

**The Fury of a Storm.**  
LONDON, Aug. 17.—News from the Scottish coast gives thrilling accounts of the predicted hurricane. The Norwegian bark Himalaya, bound for Furness, with timber, was wrecked on the sands near Nairn. The crew were gallantly rescued by the Nairn life boat in the face of a tremendous surf. The boats of the herring fleet were at sea and were caught by the tempest. As many as six hundred boats were at sea from the coast of Norway alone, and up to a late hour only 450 had arrived. The utmost anxiety is being felt as to the safety of the remainder. Many disasters occurred in the endeavor to reach the land. One boat belonging to Stornoway was wrecked and another belonging to Burghead ran ashore, but the crews of both were saved. Several fishing yachts were broken to pieces on the beach.

**Lord's Marriage.**  
LONDON, Aug. 17.—Lord Chief Justice Coleridge was privately married to Miss Amy Augusta Jackson Lawford, the young American lady whose acquaintance he made on board the steamer on which he returned from his recent visit to the United States. A special license for the marriage had been applied for and granted on the 16th inst.

**The Death Roll.**  
MADRID, Aug. 17.—Four thousand eight hundred and nineteen new cases of cholera are reported for the past twenty-four hours from the infected districts throughout Spain, and 1,340 deaths.

**A Large Rice Crop in Louisiana.**  
LITTLE ROCK, Ark., Aug. 17.—Reports from Louisiana show that the rice crop will be the largest ever gathered in that state. The season has been favorable and the crop is in excellent condition, the stand being good and the growth thrifty. Harvesting has commenced in various parishes. Complaint is made of the scarcity of laborers, and fear is expressed that much of the crop may be left unharvested. The yield will run from 60,000 to 70,000 sacks.

**One Arrow Less.**  
WINNEPEG, Man., Aug. 17.—One Arrow and Indian chief and one of Poundmaker's associates, has been tried at Regina and found guilty of treason felony. On hearing the result he said: "White man had a big talk all to himself, now wait a little, and One Arrow will talk and tell what he knows." All the trials will be over in a few days.

**Cut Down in Time.**  
CHILLICOTHE, Mo., Aug. 17.—Eva Brown, a pretty mulatto girl, sixteen years old, daughter of respectable parents, living near this city, attempted suicide by hanging, but was cut down by a bystander. She had time to save her life. Her parents opposed her marriage to an ebony-colored negro who had been paying his adoration to her.

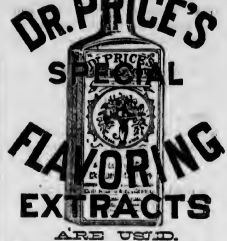

**A Photographer's Prompt Courtship.**  
AMSTERDAM, Ga., Aug. 17.—"I would like to own that face," was the remark made by Robert Dewois, a traveling photographer from Springfield, Ill., to Miss Stella Stokes, the daughter of a merchant, as he looked at her for the first time through the camera. The lady blushed and consented to come to town with him and get married.

**Fatal Brain Disease.**  
DALTON, Ga., Aug. 17.—A strange brain disease of great fatality is raging in the northeast part of Georgia. It kills in twenty-four hours. In a family of four, Murray county six deaths occurred in one day, three being in one family. In another place five persons died in one day.

**Cholera Exploded.**  
PHILADELPHIA, Aug. 17.—The official investigation into the reported case of Asiatic cholera near Camden, N. J., resulted in a verdict by Coroner Beale, of this city, that destroys the sensational. The coroner gave a verdict of death from congestion of the brain.
